→ Explore how blended meeting styles can increase your reach

Virtual conferences are fast-becoming the current norm, with some of the world's largest companies and event organisers putting the show not so much on the road, as online, that said, nothing can fully replace a face-to-face meeting or event.

To maximise attendance, contribution and interaction at your event or meeting during the pandemic, why not consider a combination of both physical and online experiences?

Møller Institute offers many hybrid event options, allowing delegates to attend in person, if they wish, whilst also allowing those who are not able to attend in person, to retain their opportunity to contribute, collaborate and learn. You may choose to record your meeting or event, if so, our experienced team will be pleased to edit the recording for you to use as a valuable resource for the future.

→ Hybrid event options

Due to the current pandemic meetings and events are now taking a new direction. Our knowledgeable team at Møller Institute are ready to use their experience to ensure we can support you in running seamless meetings and events.

Following conversations with many of our clients, we have an understanding of the key features you may be looking for to run a successful meeting or event. Below is a brief outline of the technology features we can offer, however, as always, we are here to provide a bespoke service to you and we would be delighted to talk to you about your requirements.

Video conferencing

Allow your delegates to participate remotely and take the stress out of co-ordinating the technology by having the hub of your event at Møller Institute. Our Tech team have the technology and the experience to support your event we can live stream your meeting or event to delegates across the globe, allowing delegates to participate in the full meeting and within break-out groups. Alternatively, you may require all delegates on-site together, therefore we can live stream to a number of meeting rooms at Møller Institute where your delegates will be located.

Filming and editing

With many delegates unable to attend meetings and events in person at the moment, our Tech team can film and edit your event to suit your requirements so that you can share with those unable to attend, or use the valuable material to create your own library of content.

Studio - Media suite

The Studio, located in our Study Centre, is a fully equipped filming studio and multi-media room, including everything you would expect from a high quality studio, such as green screen, static and mobile lighting, camera, teleprompter, etc. You will also have access to the interactive whiteboards and 65 inch smart TV kapp pro including two way interaction. [The Studio](#) is often used by senior leaders to record key messages and company updates.

→ Technology to enhance your hybrid event experience
